

Health Risk Assessment (HRA): Regional Report Back

Workshop summary

- All 55 counties completed the assessment, including the data entry
- Total number of participants: ~465
 - Range: 1-30
 - Average: 8 (5.5 external to health dept.)
 - Median: 7 (5 external to health dept.)

Partner participation in counties

- Hospitals*: 34/43 (**79%**)
- OES/OEM/911: 43/55 (**78%**)
- Other healthcare: 29/55 (**52%**)
- Behavioral health: 28/55 (**50%**)
- NGO/FBO: 17/55 (**31%**)
- First responders: 16/55 (**29%**)
- Education/Schools: 15/55 (**27%**)

Initial themes – evaluation data

49% Public Health Respondents, 51% Other

Strengths

- Supporting materials
- Partner engagement
- Useful for partners outside of public health
- Windstorm comparisons

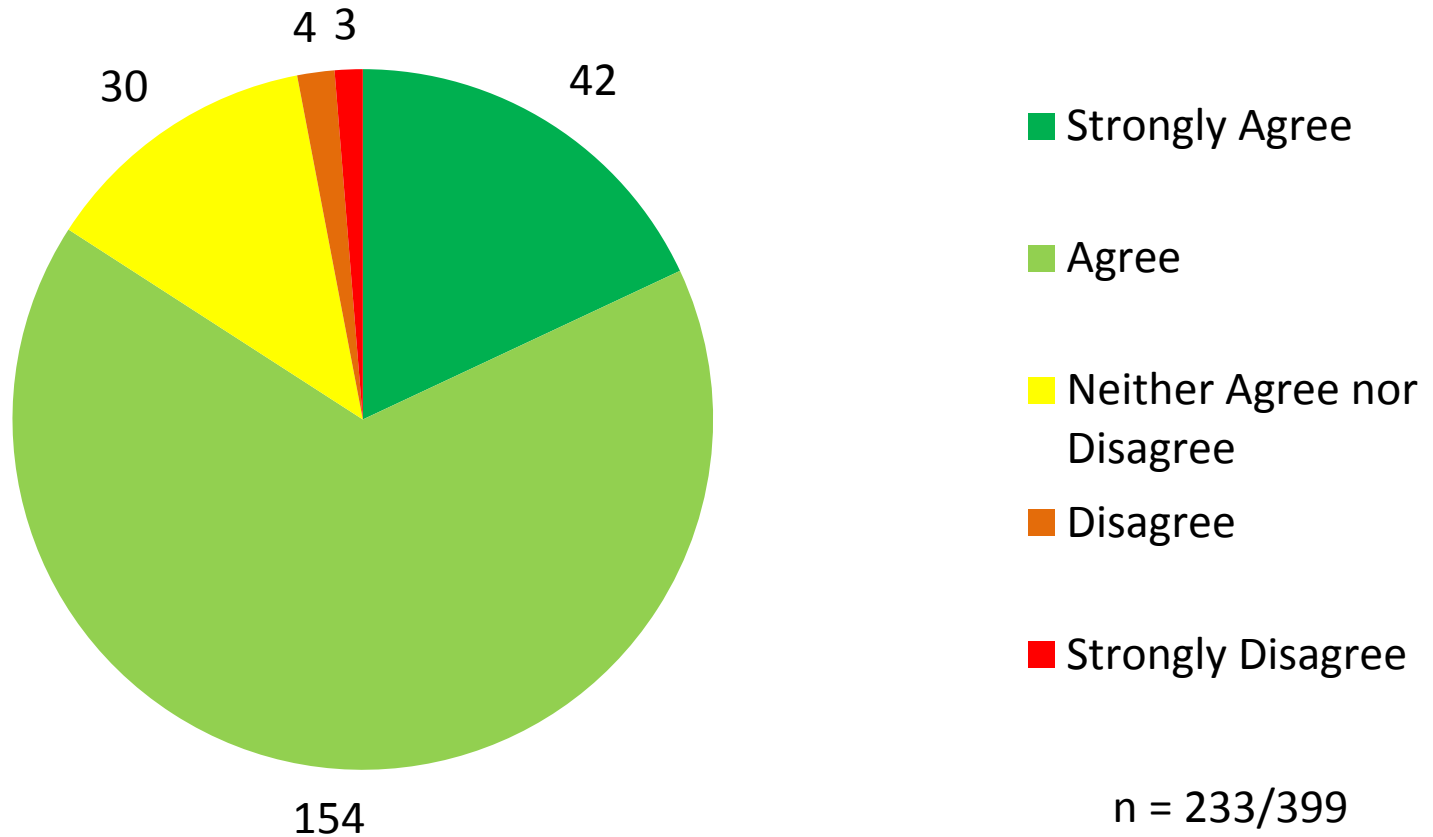

Weaknesses

- Time constraints – including Windstorm/summer vacations
- Partner engagement
- Complexity
- Tool validity
- Wording of questions

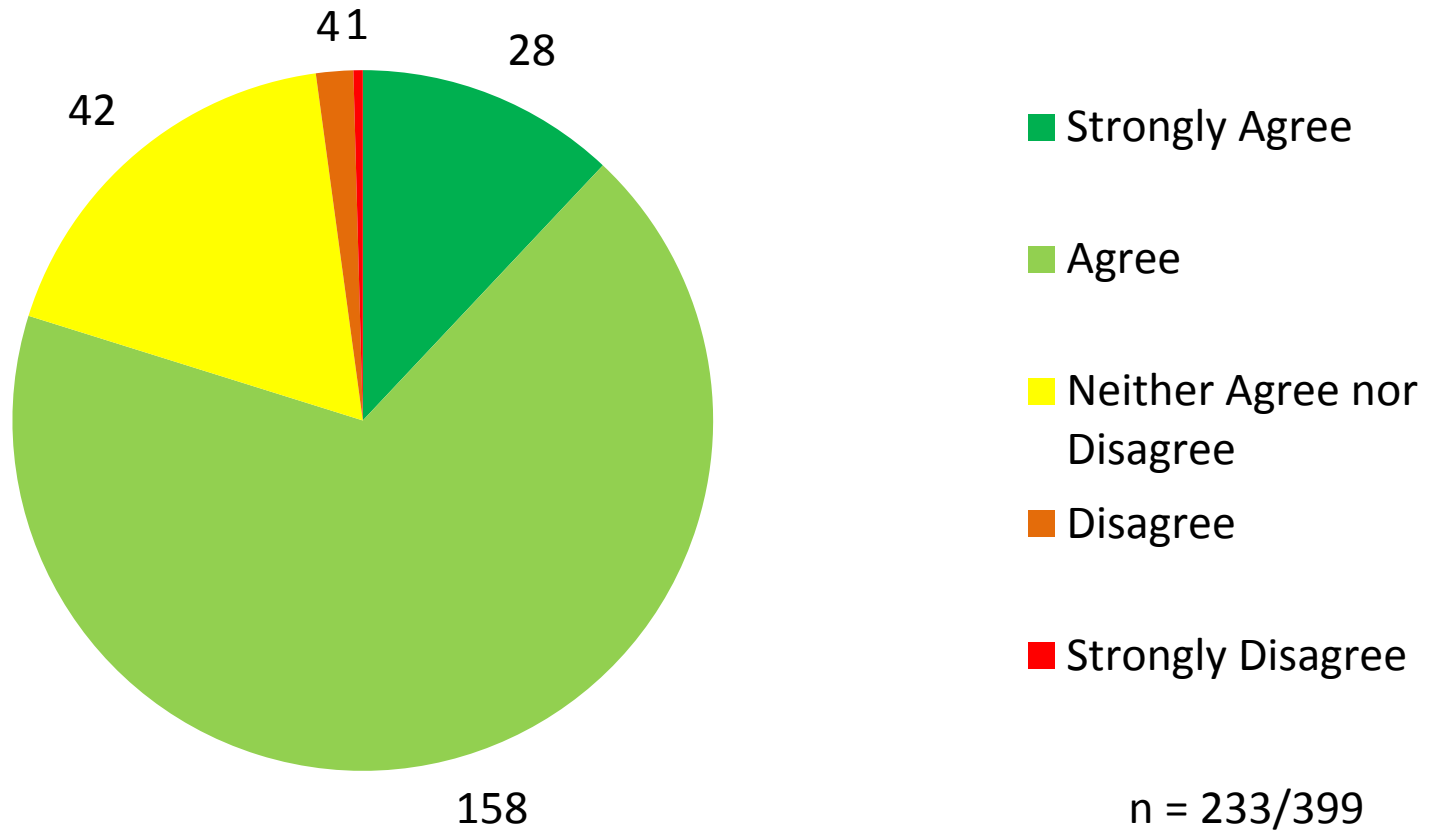

Perceived value of the HRA

Overall, participating in the HRA was valuable for my agency.

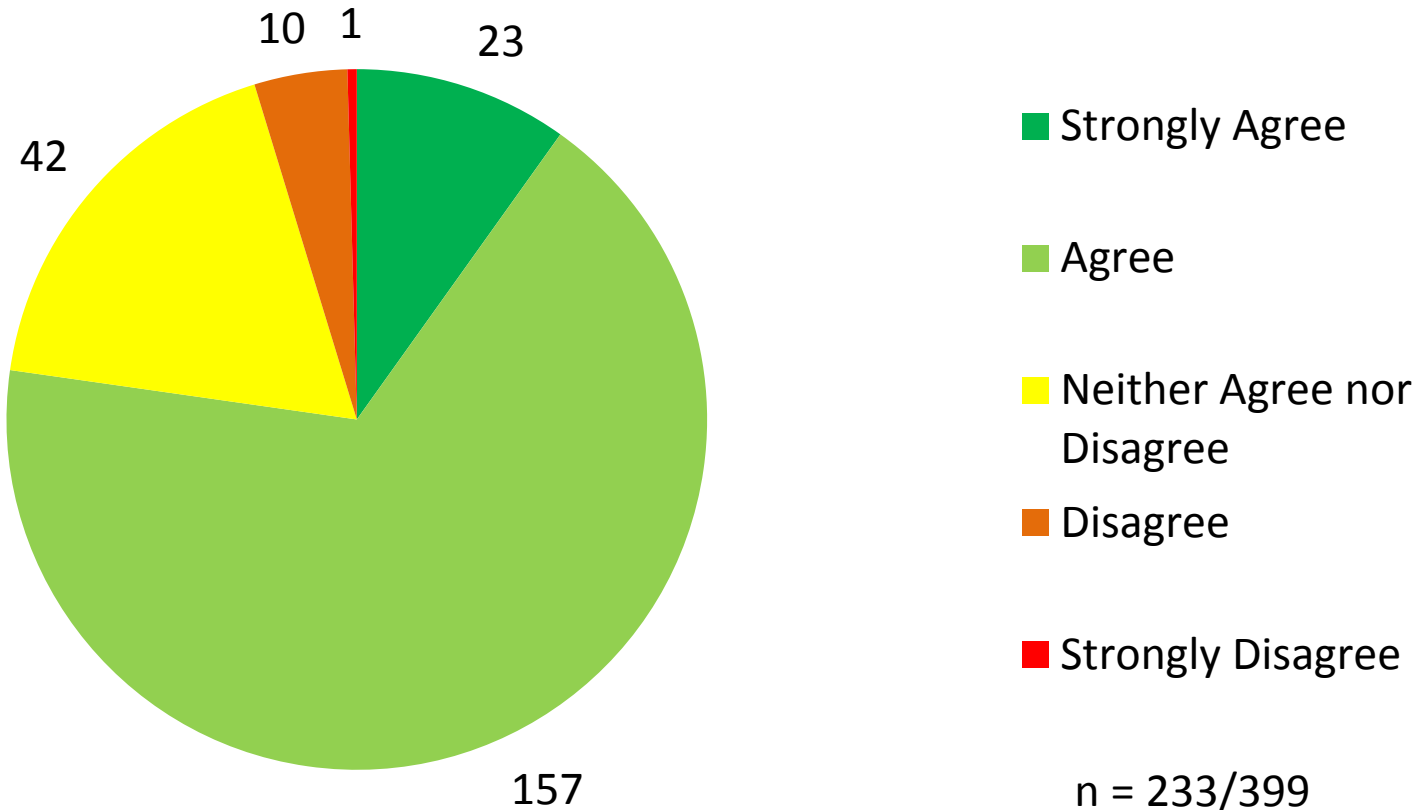

HRA used to identify plan strengths

The HRA helped me to identify strengths in my agency's planning.

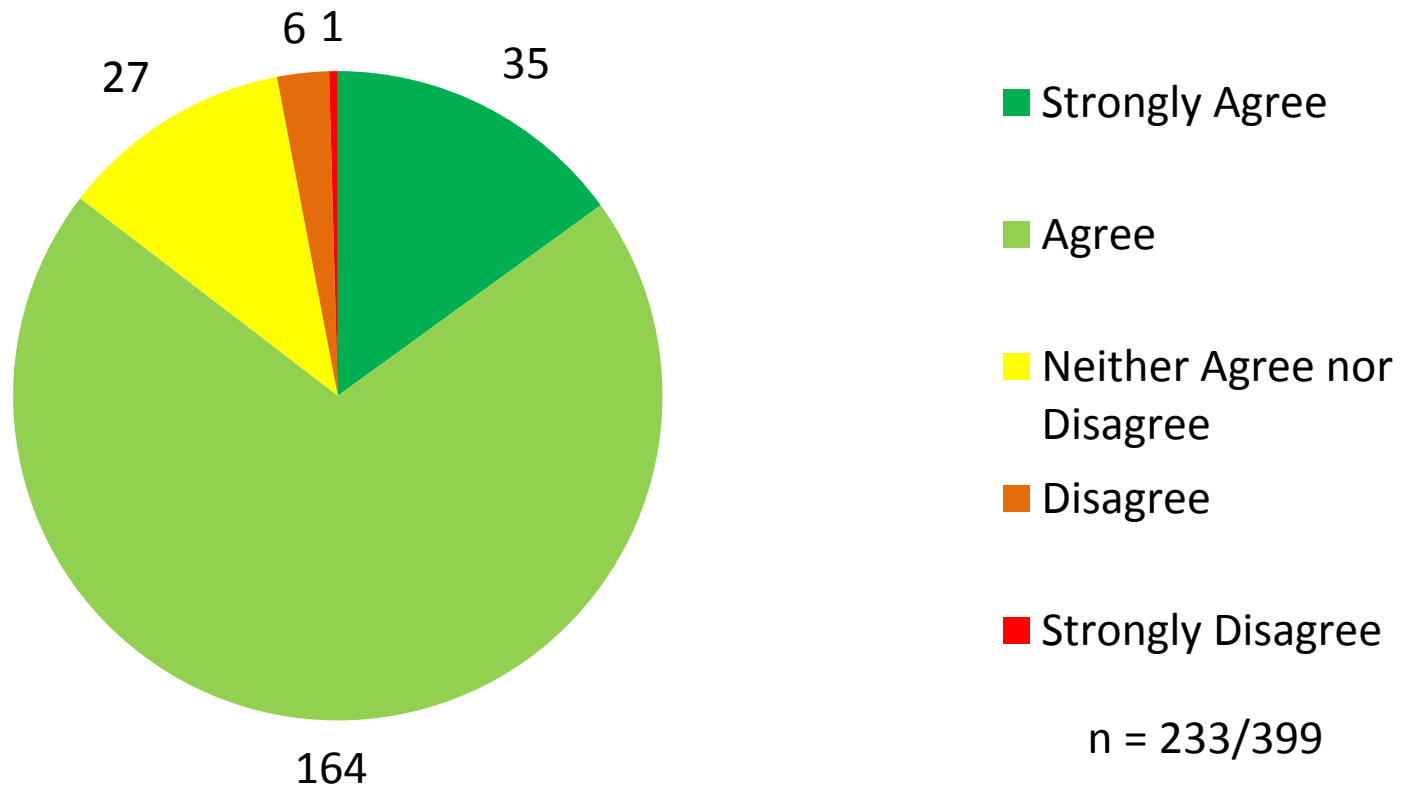

HRA used to identify plan gaps

The HRA helped me to identify gaps in my agency's planning.

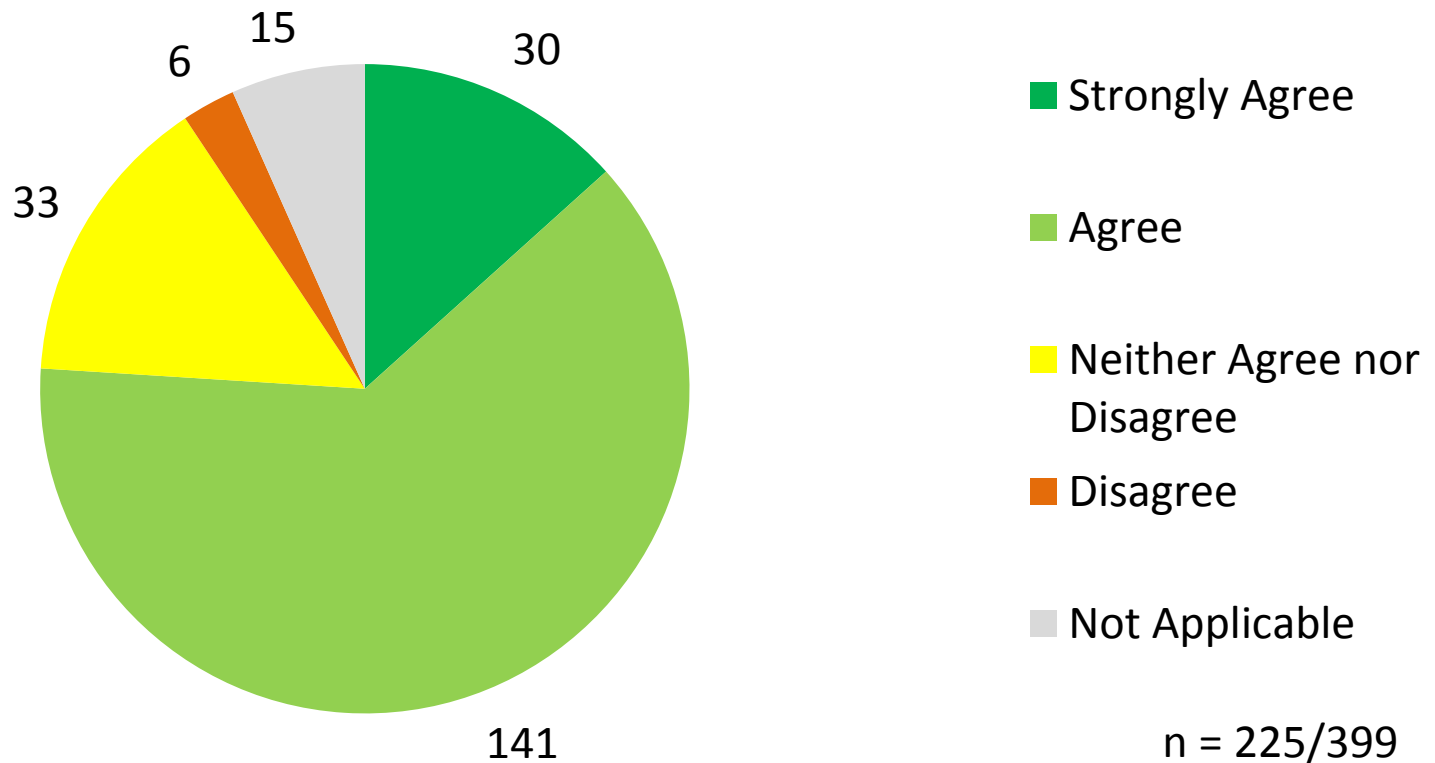

HRA useful for planning

I plan to use what I learned in the HRA in preparedness planning for my agency.

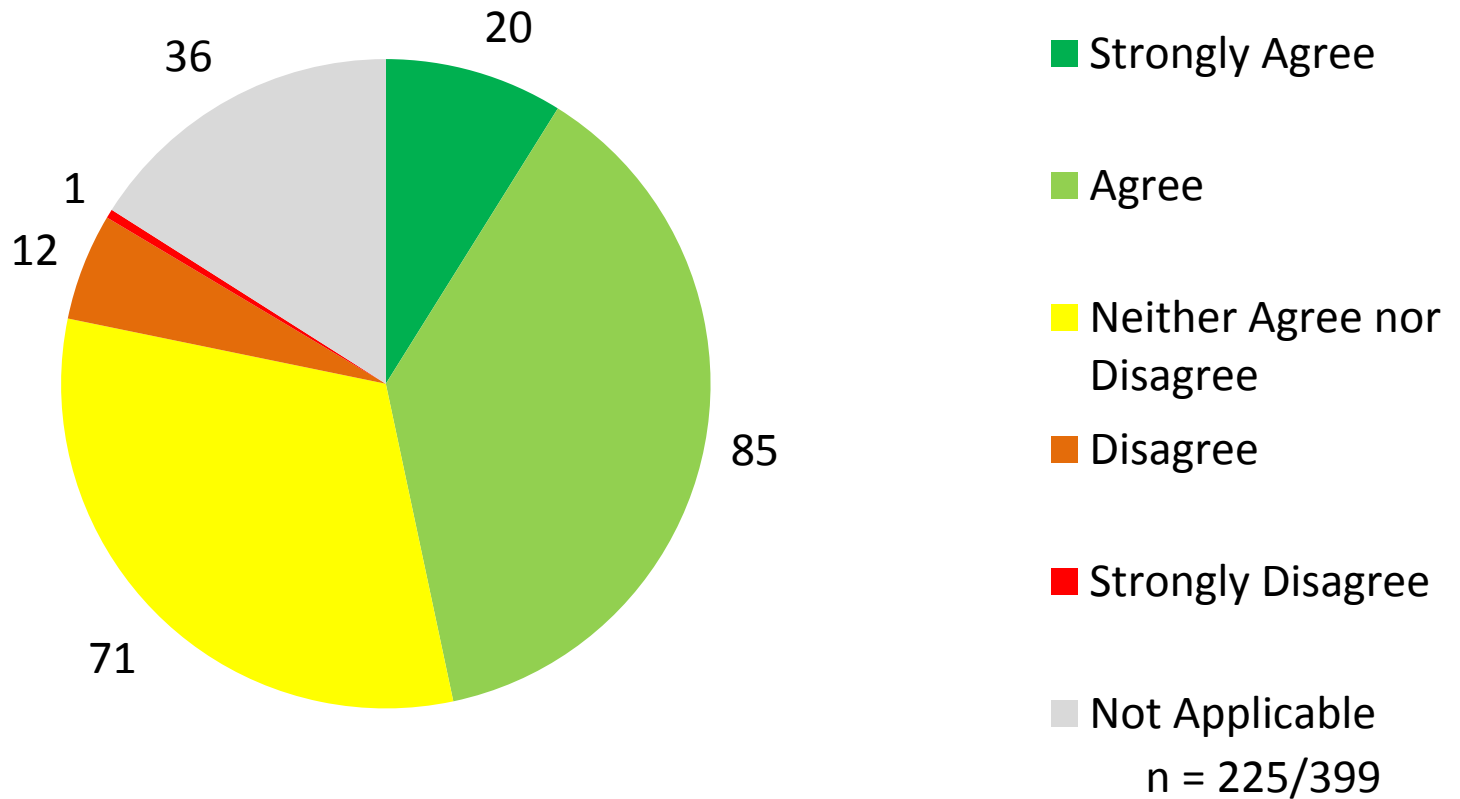

HRA useful for exercises

I plan to use what I learned in the HRA in exercise planning for my agency.

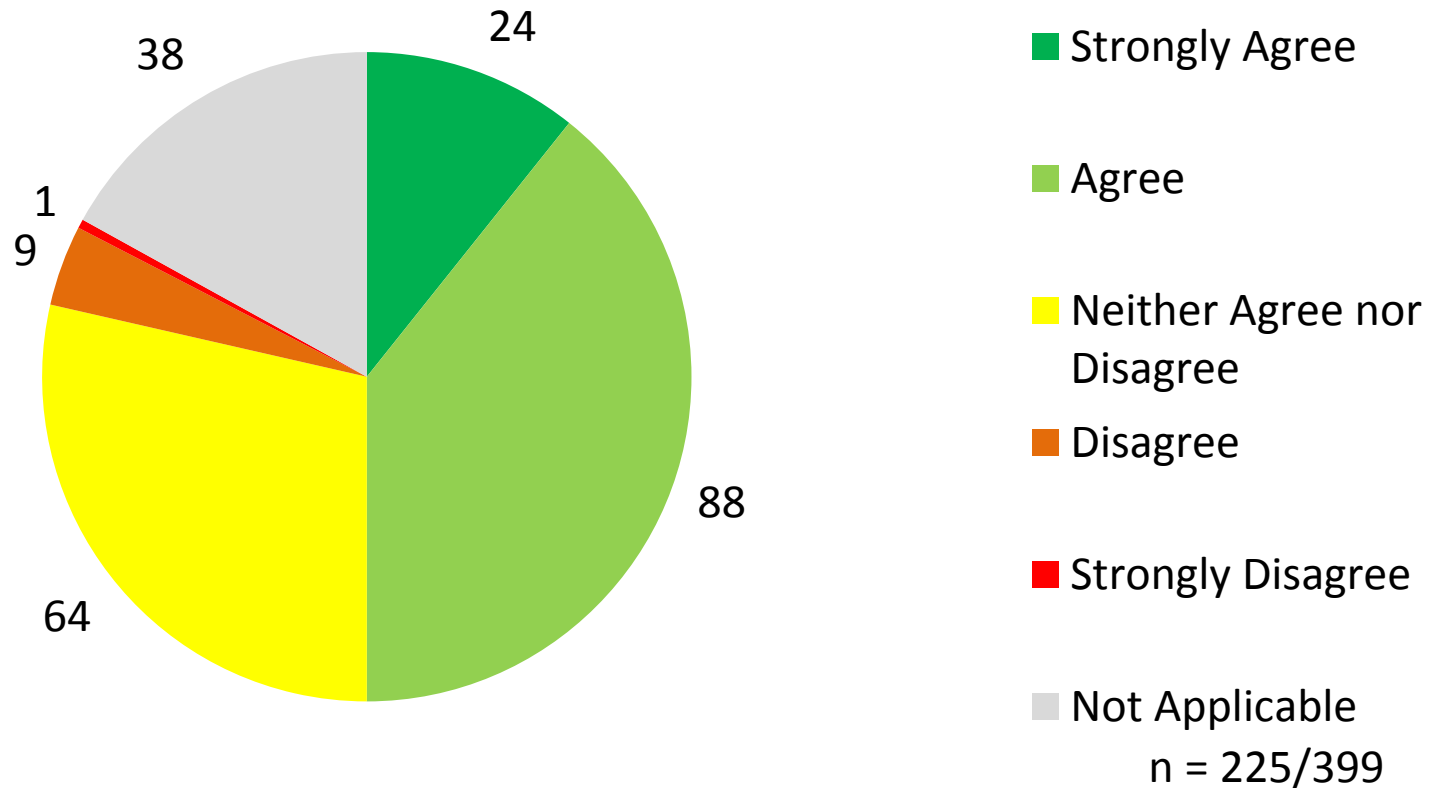

Useful in creating funding requests

I plan to use what I learned in the HRA in funding requests for my agency.

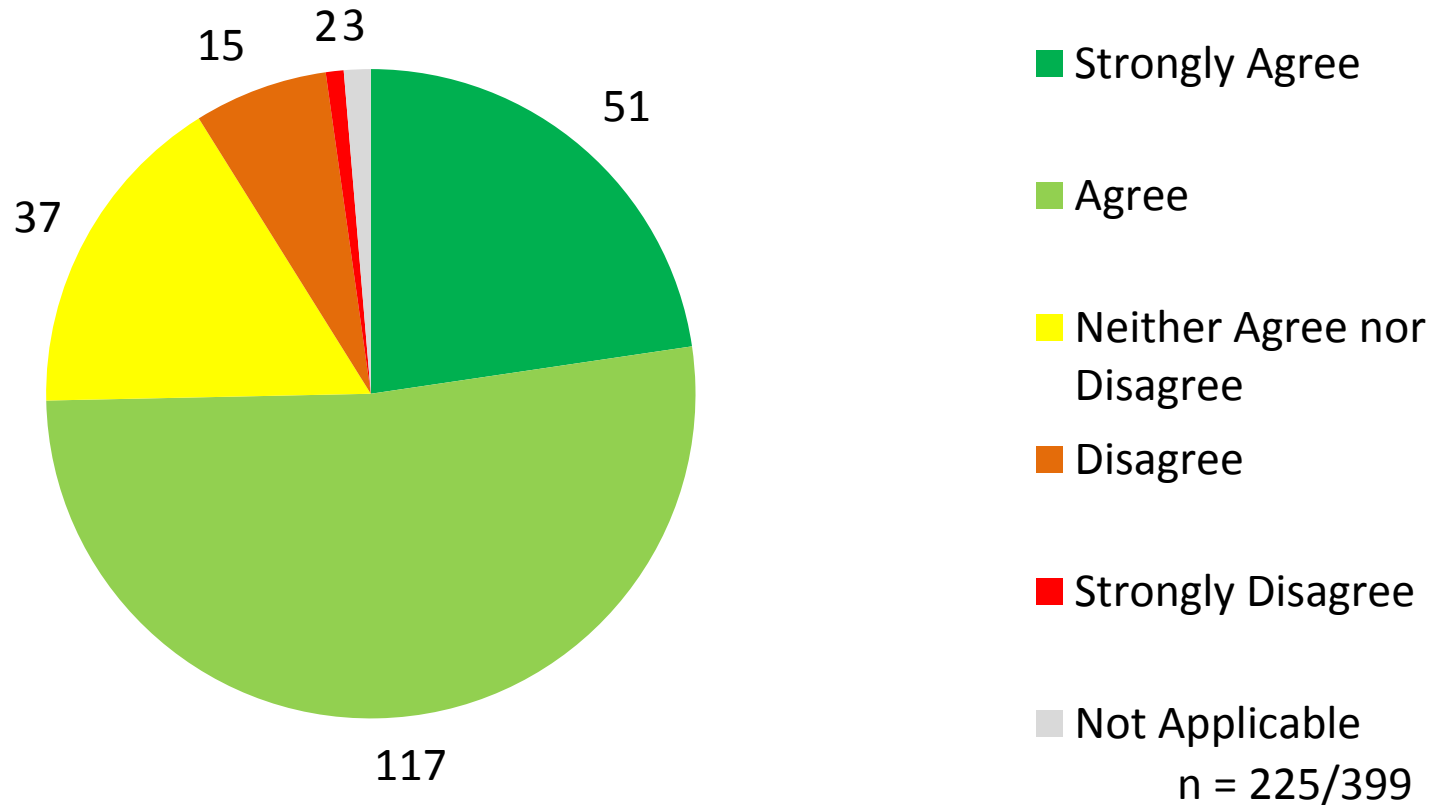

Useful in meeting grant deliverables

I plan to use what I learned in the HRA to meet grant deliverables/reports to funders of my agency.

Useful in meeting new partners

The HRA was useful in meeting and/or identifying new partners in my county.

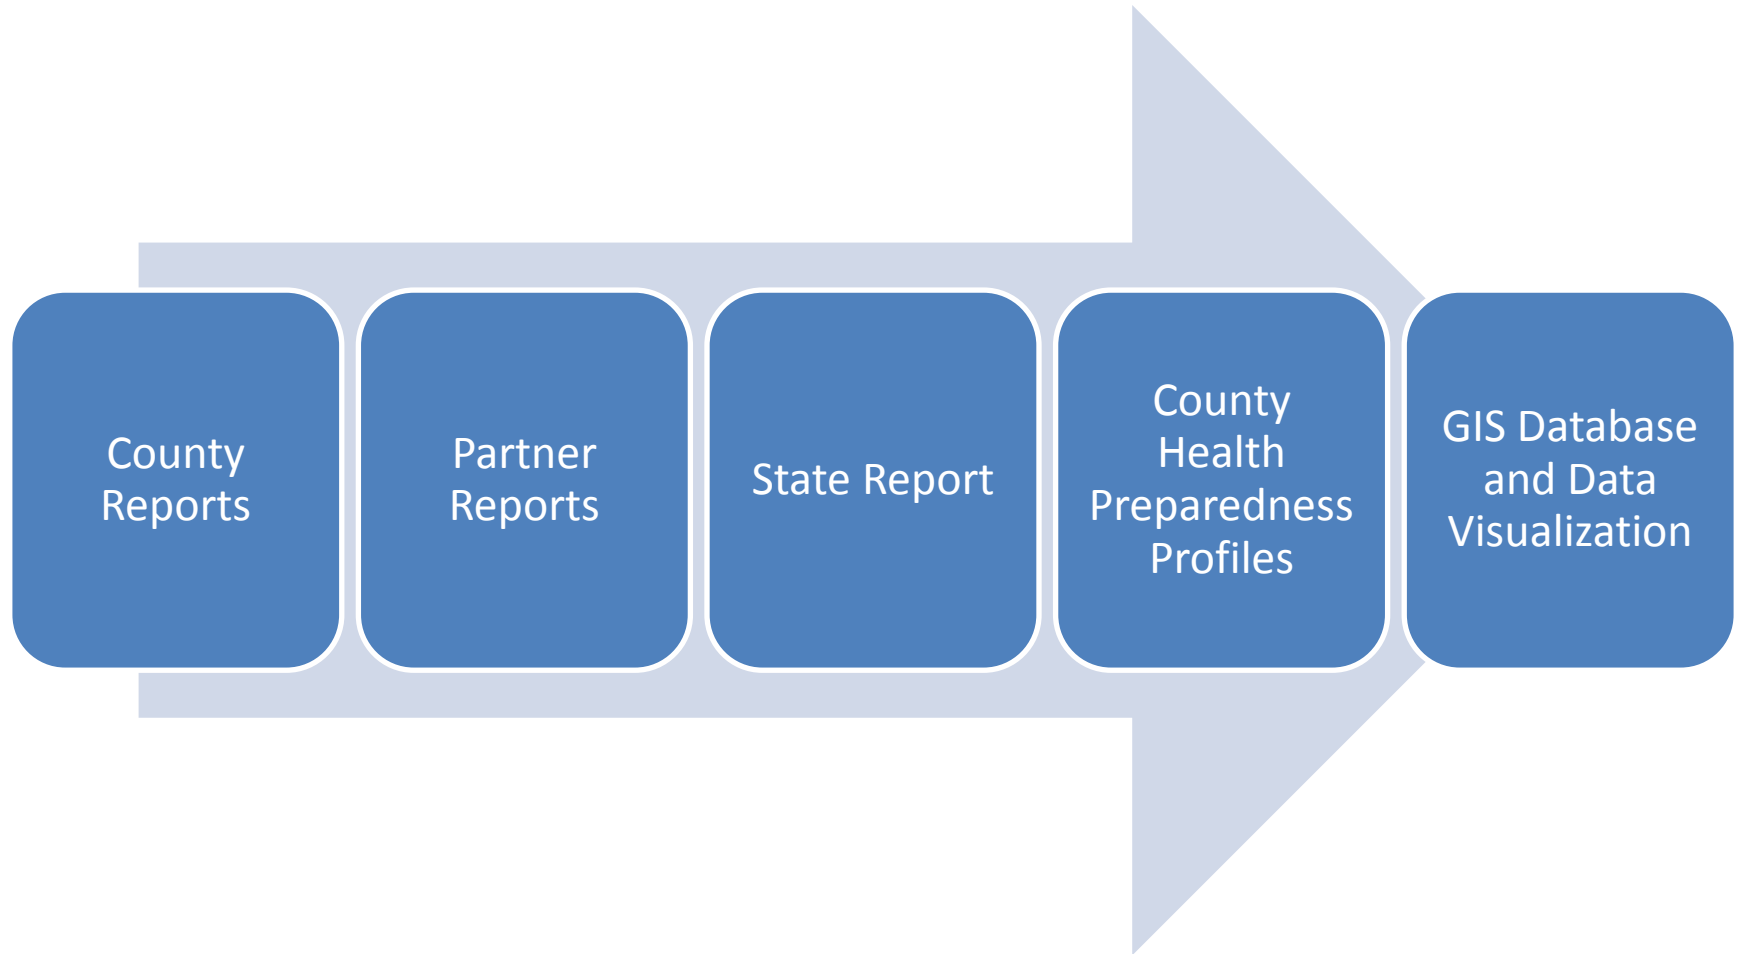

Next Steps

State deliverables to local health

- Resource guide (*December 2012*)
- Guidance/talking points for follow-up with partners (*December 2012*)
- Facilitator evaluation (*December 2012*)
