

KANAWHA-CHARLESTON HEALTH DEPARTMENT

A LETTER TO KANAWHA COUNTY RESIDENTS FROM THE PEDIATRICIANS OF KANAWHA COUNTY

The pediatricians in the Kanawha County community provide quality care for your children, following the latest guidelines and best practices of the American Academy of Pediatrics (AAP) and the Centers for Disease Control and Prevention (CDC).

Our professional organizations have long been the advocates for childhood immunizations as a means of providing preventive care and disease prevention for the pediatric and adolescent population of our county.

We, the undersigned pediatricians of Kanawha County, highly recommend and encourage you to see that all children and adolescents ages 12 and over in our area receive the COVID-19 vaccine. Preventing the spread of the virus is how we can continue to return to normal life – school, sports, concerts and restaurants.

We can end this together!

Arthur B. Rubin, DO, FACOP
